- **Google Verified Site**
- **Google Sitemap Uploaded**

Optional Service:

- **Google Analytics added to the site**

Smartphone penetration is approaching 50% of all mobile subscribers in the U.S, according to Jonathan Carson, general manager of digital at Nielsen.

Some 60% of new phones sold in the U.S. are smart phones. 2 out of 3 are android phones.

- **Accessibility:** Effectively reach your audience while they're on the go
- **Usability:** Mobile sites are simplified versions of the full site to allow quicker, easier navigation
- **Time:** Mobile users are in line at Starbucks, in a waiting room, or out on the town and will only be willing to spend a short amount of time on the site
